**Regulation on Conflict of Interest** - **If anyone checks YES, the form must be submitted to the Dean of GPS with an explanation. If there is any doubt, contact the appropriate GPS Associate Dean.**

"Conflicts of interest may take various forms and may arise in various contexts. A potential conflict of interest will exist whenever a member of the University community is in a position to influence the conduct of research, academic, human resource, business, financial, governance or other matters in ways that could lead to personal gain for the member or a related party, or give improper advantage to others, to the detriment of the University or other members of the University community."

"The Regulation recognizes that the existence of a potential conflict situation does not necessarily connote misconduct or preclude the involvement of a member in the situation in which the conflict has arisen – provided the conflict is recognized, disclosed, assessed and addressed. However, it must be recognized that not all conflicts of interest, even if disclosed in a timely manner, will be permitted.”
